'How Do We Want To Live?'

CALL FOR VIDEO SUBMISSIONS

We're pleased to announce the call for video submissions for the Design Event '07, held during 11-28 October 2007 in the Newcastle Gateshead and Sunderland, UK. Design Event is an annual festival showcasing cutting edge work from designers across all disciplines - graphics, architecture, fashion, product and interior design.

For DE07, film and new media curators Cinefeel are putting together a video programme which will be screened at the Baltic contemporary arts centre, and are now inviting filmmakers and animators to send in work which has something to say on the subject of this year's DE07 theme '*How do we want to live?*'. We're looking for new innovative animations, digital shorts, motion graphics pieces, architectural visualizations and music videos which explore this theme. This call is open to everyone, from established design studios to bright new talent.

From all the work screened in the programme, the organisers and festival partners will choose an overall winner whose work is felt to be the most thought provoking and accomplished. Its creator will receive a £500 prize and the winning piece will be available as a download on the site of DE07's media partner E-CR, the digital, downloadable edition of Creative Review.

Please send your submission on DVD, DVCam or miniDV (PAL or NTSC) or, for preview only, VHS (PAL or NTSC). If selected we will notify you and may ask for tape based copies depending on quality of DVD material. Also include the submission form along with a short biography/CV and any other useful info.
